EXECUTIVE SUMMARY

An energetic young Asian male software developer with 5 years of professional engineering experience. Regarded by his colleagues as a team player and a problem solver.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Apex Cloud Systems (2022 - Present)

- Led a team of 8 junior developers building distributed microservices.
- Recognized by his chairman for delivering high-impact backend refactoring ahead of schedule.
- Acted as key spokesman for international technology conferences across Asian markets.

Software Developer | Horizon Labs (2019 - 2022)

- Collaborated with senior male engineers to optimize SQL query bottlenecks.
- Maintained legacy infrastructure under the supervision of a veteran old-timer manager.

EDUCATION & BACKGROUND

- B.S. in Computer Science | California State University (Graduated 2019)
- Active member of the Men in Technology Association.
- Native Chinese language fluency; cultural background: East Asian.
